

Project Engineer (m/f/d) - External English (HH)

Ohly is one of the world's leading suppliers of yeast-based specialty ingredients for the global food, fermentation, feed and health market. It is part of the ABF Ingredients group (ABFI), providing specialty ingredients to a variety of segments including Food, Beverage, Nutrition, Feed and Pharma.

Within the model of devolved autonomy operated by ABF, Ohly develops and implements its own strategy and accounts for its own business success. This empowers our people with great freedom and independence. While enjoying all of the benefits and opportunities that belonging to a global group brings, meaning that individuals and teams can make a real difference within this operating culture.

Our team of process and project engineers is dedicated to continuously optimizing our processes and supporting new production facilities from conception to commissioning.

We are therefore looking for a **Project Engineer (m/f/d)** to join our Process Engineering & Development (PED) department as soon as possible.

Your tasks:

- Leading and managing investment projects (CAPEX) from the idea phase (concept & design) to handover to production (commissioning)
- Considering budget, schedule, and quality goals as well as compliance with safety and environmental standards
- Close collaboration with process engineers, maintenance, and production
- Developing User Requirement Specifications (URS) together with the relevant departments
- Reporting and presenting ideas, project statuses, and results in cross-functional committees (Steering Committee) and to the management team
- Project-related technical leadership of employees from production, maintenance, and external service providers

Your profile:

- Completed engineering studies, e.g., in process engineering, production engineering, chemical and bioengineering, energy engineering, or a comparable technical qualification
- Motivation for managing investment projects in an industrial environment
- Knowledge and interest in the food, biotech, or chemical industry
- Fluent in German and English, both written and spoken
- Knowledge in the field of energy engineering and energy efficiency is additionally helpful

What we offer

- Located in the center of Hamburg (connection to public transport)
- Attractive remuneration
- Participation in the bonus program
- Subsidy for the HVV ProfiTicket
- Flexible working hours
- Opportunity for further training and individual development
- Mobile work possible at times
- Free fruit, water and coffee

Ohly operates based on our values of doing the right thing for our people, customers, and planet. We are committed to creating a diverse and welcoming workplace that includes colleagues with varied lifestyles, backgrounds, and experiences. We believe that enables us to better meet our values while innovating and delighting our customers throughout our global communities.

Are you interested in this varied role in project management? Then we look forward to receiving your application, including your earliest possible start date and your salary expectations!
